MARWA ARAFA

EGYPT

Marwa Arafa is an Egyptian human rights activist arbitrarily detained for over six years because of her peaceful activism supporting detained children and their families. Arrested in front of her young daughter, she faces unfounded terrorism-related charges which can carry life imprisonment. Her case is part of a wider effort to silence peaceful dissent in Egypt.

Call for Marwa Arafa's immediate and unconditional release and the dropping of all charges against her, as she is detained solely for exercising her human rights.
