A good friend likes the same things as you.

A friend should always agree with your opinions.

I think everyone in my class feels like they belong.

There is a place for everyone in the world to belong.

I like to feel a sense of belonging.

It is easy to feel like you belong.

People who don't feel they belong need to change how they act.

We can play an important part in other people's sense of belonging.

People always feel like they belong in their families.

We could do more as a class to help people feel they belong.

We could do more as a country to help people feel they belong.

Our sense of belonging changes over time.

Our friends can hurt us more than people who aren't our friends.

I will always have the same friends.

Friendship is one of the best things in the world.

The more friends I have the better.

Displaced people should be welcome here.

We can help displaced people.

Our school is a very welcoming place.
