

Class 8, 9, 10 & 11 Teachers' Notes

What actions do the class need to do to complete the action project?

Preparation

1. Print out the reflection sheet, one per student for each class.
2. At the beginning of the class ask each group/team/committee to feed back to the class what they have achieved since the last meeting and their plan for this particular class. Allocate the last five minutes of class to discuss what was achieved during the class and what needs to be achieved by each group/team/committee before the next class. Allow five minutes for completion of their reflection sheets.
3. Arrange to take photographs of the class working on their action.
