

FIVE KEY QUESTIONS ON HUMAN RIGHTS ISSUES THAT WE THINK YOU SHOULD BE ASKING CANDIDATES

DIRECT PROVISION

Will you commit to ending Direct Provision, and make sure an alternative is created that is human rights-compliant? If yes, will you be consulting people who are living or have lived through Direct Provision?

CLIMATE CHANGE

We need to halve global emissions by 2030 and reach net-zero by 2050 to stop the worst effects of the climate emergency. What will you be doing to achieve these targets?

HOUSING

Will you call for a referendum on putting the right to housing - and other economic and social rights like health - into the Constitution, as one longer-term way to resolve the housing crisis?

ABORTION RIGHTS

Will you commit to creating legislation for safe zones at healthcare facilities that provide abortions, and to ending the 3-day waiting period for accessing abortion on request?

HUMAN RIGHTS DEFENDERS

How will you ensure the EU does more to protect the rule of law and human rights defenders in countries, like Hungary and Poland, where governments are severely rolling back protections?
